PREPARING YOUR BUILDING
For Back to Work in the Era of COVID-19

Hermanson is a COVID-19 Essential Service Provider
A FOUR-PRONGED APPROACH

Hermanson recommends a four-pronged approach to preparing your building for the return of residence, tenants and visitors.

<table>
<thead>

<td></td>
<td></td>
</tr>
</tbody>
</table>
WHY FLUSH?

ASHRAE recommends flushing a building with as much outside air as possible to remove pathogens.
WHY FILTER?

The National Air Filtration Association (NAFA) sets standards and guidelines for the filtration of particulates and pathogens in HVAC systems.
WHY CLEAN?

The CDC and OSHA set guidelines and regulations for cleaning protocols related to infectious disease control.
Why Maintain?

The combination of regular and periodic maintenance ensures equipment fully provides adequate ventilation and improves indoor air quality and safety.
The information presented during this webinar is current as of the date presented.

Hermanson will endeavor to keep you informed of changes, new information and guidelines as they become available.
